“OK, so why the \$#&% did I save a second copy?!?!?!”

And why the \$#&% was the first copy edited *after* the second copy?!?!?!”

GIT WORKFLOW

Chris Prener
2:20pm January 14, 2017

Initial Draft of Response Paper

Rough outline of each required section.
The intro still needs a hook and the thesis statement needs to be clarified.

responsePaper1.md

GIT WORKFLOW

Chris Prener
3:30pm January 14, 2017

Introduction improved

Added a hook to the beginning of the introduction and strengthened the thesis statement.

GIT WORKFLOW

GIT WORKFLOW

Local repos can "sync" with a "remote" repo, making backup and sharing easy

GIT WORKFLOW

Copying data for the first time from GitHub is called making a "clone"
